Boulder Neurosurgical & Spine Associates Welcomes Neurosurgeon, Dr. Kara D. Beasley

(LAFAYETTE, Colo.)— *Thursday, January 12, 2012* – Kara Beasley, DO, MBe, has joined Boulder Neurosurgical & Spine Associates (BNA) of Northern Colorado. Appointments can be made by calling 303.938.5700.

BNA has been in practice for more than 10 years and continues to expand its services in order to provide local, national and international patients with the most personalized, minimally invasive and technologically-advanced spine and brain care. Dr. Beasley is fully trained as a general neurosurgeon in cranial and spinal trauma, endoscopic and open tumor surgery, Radiosurgery, complex disorders of the spine including tumor and degenerative spinal disease, epilepsy surgery and neuromodulation.

"I believe each patient is unique and my approach is to tailor a minimally invasive treatment plan that takes into account the personal goals of the patient, as well as the surgically unique details of that particular patient's disease," said Dr. Beasley. I am committed to excellence in patient care in both the operating room and the outpatient setting. I am able to provide cutting edge surgical treatment including the most advanced techniques in neuromodulation for Parkinson's disease, essential tremor, dystonia, epilepsy, and refractory chronic pain, as well as full complement of general neurosurgical and spine diseases."

Dr. Beasley completed a dual degree in medicine with a Masters of Arts in Biomedical Ethics at Midwestern University, Glendale, AZ. She went on to complete a general neurosurgery residency at Philadelphia College of Osteopathic Medicine, Philadelphia, PA. She is one of the only dually credentialed neurosurgeon bioethicists in the world. Dr. Beasley has completed fellowships in Stereotactic Radiosurgery at Cooper University Hospital, Camden, NJ, and Functional and Restorative Neurosurgery at The Cleveland Clinic Foundation, Cleveland, OH. She has also finished a clinical scholarship in advanced epilepsy surgical techniques. While at the Cleveland Clinic, she was able to participate in a special concentration in Neuroethics.

Boulder Neurosurgical and Spine Associates (BNA) is a comprehensive neurosurgical practice located in Boulder, CO, with multiple satellite locations located throughout Northern Colorado. BNA has been in practice for more than 10 years, with surgeons who have received the highest ratings in the Denver Metro area. BNA is one of the few practices in the country with expertise in both orthopedic and neurosurgical spine care. BNA has been extensively published on orthopedic and neurosurgical and spine care and BNA surgeons have presented at hundreds of national and international meetings on the most up-to-date surgical and non-surgical techniques. BNA surgeons founded the Justin Parker Neurological Institute (JPNI), a fully accredited nonprofit organization whose principle purpose is to conduct clinical research, advance knowledge and practice medicine through innovations in clinical technology, while providing evidence-based clinical guidelines and education to health care professionals.
