

BrainLAB Community Neurosurgery Award (Tumor Section Members Only)

The BrainLAB Community Neurosurgery Award is awarded at the annual meetings of the American Association of Neurological Surgeons and Congress of Neurological Surgeons. This award is given to a neurosurgeon practicing in a non-academic setting with the best abstract related to central nervous system tumors. Drs. Michael McDermott and Ronald Warnick were instrumental in securing this award given through the generosity of BrainLAB. Dr. Luciano Mastronardi received the BrainLab Community Award at the 2007 CNS for his presentation "Utility of Intraoperative MR-Tractography for the Resection of Intracranial Tumors". Dr. Alan Villavicencio will receive the award at the 2008 AANS meeting in Chicago for his paper "Survival Following Stereotactic Radiosurgery for Newly Diagnosed and Recurrent Glioblastoma Multiforme ". Recipients are awarded \$1000.
